AMINO-VIBEX®

(YEAST HYDROLYSATE)

An Amino Acid Preparation in Granular Form for Oral Use

AMINO-VIBEX therapy overcomes protein malnutrition

AND

Provides building material for antibody production in bacterial infections in which protein intake is restricted.

Maintains nitrogen equilibrium during periods of nitrogen loss due to diarrhea.

Provides acid binding substances for patients with peptic ulcers or gastric hyperacidity.

Supplies protein needed for blood and serum regeneration in treatment of hypoproteinemia incident to anemia.

Supplements protein intake during pregnancy.

Replaces nitrogen losses due to severe burns.

Reduces operative shock and speeds recovery.

Provides readily assimilable nitrogen for patients with liver and kidney diseases.

Increases nitrogen intake of aged and convalescent patients.

METOPON HYDROCHLORIDE

(*Methyldihydromorphinone hydrochloride*)

A new morphine derivative for relief of the pain of cancer distributed under the supervision of the Drug Addiction Committee of the National Research Council with the cooperation of the American Cancer Society.

For Oral Administration Only

Metopon is available *only* in capsule form *for oral administration*. The capsules are put up in bottles of 100 and each capsule contains 3 mg. of Metopon hydrochloride. They can be obtained by physicians from Parke, Davis & Co., on a regular official Narcotic Order Form, which must be accompanied by a signed statement supplying information as to the number of patients to be treated and the diagnosis on each. The drug is distributed for *no other purpose* than oral administration for chronic pain relief in cancer cases.
